

Bubble Sort

It is one of the simplest sorting algorithms
where, in every pass / round / iteration
the heaviest / largest element is pushed
or placed in its correct position!

5 | 1 | 3 | 9 | 6 | 2

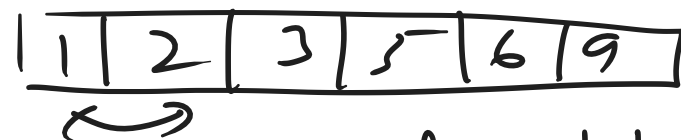

Iteration 3

Iteration 4

Iteration 5

n loops: 1 to $n-1$
 $\frac{n}{2}$ loops: 1 to $\frac{n}{2}$
($\frac{n^2}{2}$)
